### THE ROUTE OPEN.

Via Bresnik to Sofia—The Widden  
Army Whipped.

By Cable to THE SENTINEL.  
BELGRADE, Nov. 18.—An official report from the front, states the Servians entered Bresnik yesterday. The town had been abandoned by the Bulgarians, who in their haste to get away, left eight guns behind them. The capture of Bresnik leaves that route open to Sofia. The Bulgarian army of the Widden district may be considered completely dispersed.

WASHINGTON, D. C., November 17.—The annual report of the lieutenant-general of the army is made public to-day. At the date of the last consolidated returns, the army consisted of 2,154 officers and 24,705 men. Nothing, says the report, has yet been done in the division of the Atlantic, for the protection of our seaboard, by the improvement, enlargement, or increase of the armament of our fortifications. So that many of our large cities are still at the mercy of the ironclads of foreign nations, in case of rupture of our relations; but it is hoped that public sentiment will before long prevail on congress for a liberal appropriation in this respect. The division of the Missouri had disturbances which have severely taxed the troops and the supply departments of the government. First came the Oklahoma invaders, then the Cheyenne and Arapahoe disturbance, which threatened for a time all the horrors of an Indian war. In the south western corner of New Mexico many lives have been lost by the invasion of a small body of Chiricahua Apaches, from Arizona. A large number of troops are at present operating in the district, with the view of its protection and there are hopes of an early settlement of the Apache difficulty. In the north west General Terry commanding the department of Dakota, was obliged to keep a large number of troops in the field on account of the Riel rebellion. General Howard commanding the department of the Platte, in addition to furnishing troops to the department of the Missouri, for the apprehended difficulties with the Cheyennes, had and now has to provide troops on account of the Chinese labor troubles in Wyoming.

Of the division of the Pacific General Sheridan says:

"The situation in that part of the division, comprising the southwestern portion of the department of Arizona, has been, I regret to say, far from satisfactory. So long as Gen. Crook had control of the Apaches, under the agreement between the secretary of war and the secretary of the interior, matters went on very well in Arizona, but when contentions began under the divided authority that existed a year ago, distrust and trouble arose among the Indians and continued until the outbreak of the Chiricahuas in May last. The outbreak was turbulent and without cause and embraced only a part of the tribe, but this element comprised the young and most vigorous. The conduct of this band, not exceeding forty-two men and ninety-two squaws was fiendish in the extreme. Unprotected and unarmed people were murdered wherever met and when pressed by the troops scattered like a flock of quails and came together again at some designated point from fifty to one hundred miles distant. They should all be exterminated or captured and I have the greatest confidence in General Crook's ability to accomplish this purpose, though the difficulties are very great. I take great pleasure in commanding General Crook for the admirable disposition of his troops and his steady perseverance under disheartening circumstances."

No events have occurred in the departments of California and Texas of any special importance. The same may be said of the department of the Columbia, commanded by General Gibbon: The Nez Perce Indians were sent back to the department from the Indian territory, but no appropriation was made for their subsistence and to keep them from want a small amount of army rations have been doled out to them.

General Sheridan recommends that the national guard be regulated by a general law of congress and that the number of officers and men be fixed and unchangeable.

The report continues, "The discipline throughout the army is very good. I have no recommendation to make, except to increase the number of men in the companies and to add two majors to every regiment of infantry." General Sheridan closes his report by quoting freely from General Schofield's suggestions in regard to the necessity for action, by congress, on the gov-

ernment and regulation of the military forces.

GENERAL SHERIDAN'S INDIAN POLICY.  
Sheridan in his annual report says of the Indian question: "The Indians are the richest people in this country, as communities. Their reservations include some of the best land and if divided among the heads of families, each family would have thousands of acres." He recommends that each family be given and located on 320 acres now, provided for them by law.

In case of actual settlement, the government should then condemn all the balance in each reservation, and buy it for \$1.25 per acre, paying in bonds and giving the Indians the interest on the bonds. This would yield more than is now appropriated by congress for their yearly maintenance. It would be their own money and take the question of annual appropriations for them, out of congress.

### GRANT'S BOOK.

The First Volume has Just Been Issued.

By Telegraph to THE SENTINEL.

NEW YORK, Nov. 18.—The Tribune says: "The first volume of General Grant's book is published. It contains nineteen illustrations, including that of the house in which he was born. The first of the fifty-nine chapters, are devoted to the question of ancestry, birth and boyhood. The second takes up West Point and the graduation. Chapters three to six, inclusive, tell of his army life, while chapters seven to thirteen deal with the Mexican war. From the fourteenth to sixteenth chapter, inclusive, is a narrative of his marriage and life in California up to his resignation in the army. The remaining twenty-three chapters are devoted to the war of the rebellion and there are maps of all principal battle-fields."

The second volume touches incidentally upon the Andrew Johnson matter, which has been subject to so much discussion of late, caused by Mr. DePew's letter. It will be published in March.

### A FEMALE SEMINARY

Burned to the Ground, the Work of an Incendiary.

By Telegraph to THE SENTINEL.

QUITMAN, Georgia, Nov. 18.—A building used as a colored female seminary was burned last night. Several months ago the northern Methodists purchased the building, but the citizens objected strongly to the location of a negro institute on the site and every effort was made to effect an agreement which would change the location to another part of the town. Soon after the opening of the school an unsuccessful attempt was made to assassinate the principal by shooting him at night, after calling him to his door. No lives were lost by last night's fire. The origin of the fire is a mystery. Mrs. Rutherford B. Hayes is said to be one of the ladies interested in the school.

NEW ORLEANS, Nov. 18.—

#### COMMON SENSE IN LAFAYETTE.

Lafayette, Ind., shares with twenty-three other cities and towns in the United States, the distinction of being named after the great French patriot who did so much for this country and his own, but it is alone in the honor of being mentioned in the Encyclopedia Britannica. Life in the lively pushing city on the Wabash, with its many cozy homes, fine public buildings and general air of prosperity and enterprise, is very pleasant, and recently many of its citizens feel that it has assumed new charms since rheumatism has been robbed of its terror.

This great benefaction, however, is not one which rejoices this particular Lafayette alone, but it has been given to other Lafayettes as well, and to the world. Athlophorus is the magic remedy which drives away rheumatism and neuralgia, and Lafayette has only shown its characteristic enterprise in recognizing the new cure's many virtues. Among those whom it has benefited is Mrs. Francis Heath, of No. 79 Ferry street, an old resident and the mother of banker Heath. In answer to one who recently called on her to learn the facts in the case she gave this account:

"I have had rheumatic pains in my feet for a number of years. They affected me at times so that it was with much difficulty that I could walk, especially in going down stairs. Athlophorus was first recommended to me by Bishop Bowman. I did not get it at that time, but kept trying other medicines. It was again recommended to me by a lady. I sent her for and bought a bottle. I took a dose, and it seemed to me as if I could feel it go through my system until it came directly to the sore spot. It felt just as a little stream of water looks when during its course it comes in contact with a pebble. One or the other must give way. The water may run around the stone, but that was not the way Athlophorus did. It did not go around the pain, but drove it away. The relief was almost instantaneous. While I am getting along in years and cannot expect to get rid entirely of these pains at once, yet a small dose of Athlophorus in a little cream—the way in which I find most pleasant to take it—relieves the pain immediately."

Mr. Baldwin, who is in the real estate and insurance business at No. 94 South Third street, and who lives at No. 17 North Sixth street, happening to be passing while Mrs. Heath was speaking, she called him in and he gladly told how he had been cured of rheumatism by Athlophorus.

"I was just about to start down to my office one morning last winter," he said, "when a terrible pain took me right in the hip and then ran down the sciatic nerve as quick as lightning. It was with much pain and distress that I managed to get down to my office at all. My business being such that it was necessary for me to be at the office every day, I was obliged to hobble along and get there the best I could. I suffered for some time in this way, trying all kinds of remedies, but nothing seemed to check the disease until I commenced using Athlophorus. The first four doses gave me relief. I only used one bottle, and am perfectly well, as you see me now. I have never had any return of the pain since I took the Athlophorus."

If you cannot get Athlophorus of your druggist, we will send it express paid, on receipt of regular price— one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us, as directed. ATHLOPHOROS CO., 112 Wall Street, New York.

WEDNESDAY, NOV. 18, 1885.

MISS CLEVELAND has returned to the white house.

VICE PRESIDENT AND MRS. HENDRICKS, State Secretary Myers and Treasurer Cooper, went to Chicago last night to attend the fat cattle show there.

EDWARD P. ELLIOTT, of Indiana, has resigned as a special examiner in the pension office at \$1,400 a year, and Charles Slavins, of Missouri, was appointed in his place.

THE pope has settled the tiresome Caroline Islands matter by recognizing Spain's sovereignty over the islands, and advising Germany to accept the commercial concessions tendered by Spain.

INDIANA office-seekers are being notified that the supply of places in the departments at Washington is exhausted and applications for appointments must be made through the civil service commission.

LIEUTENANT SCHELL, of Indiana, of the treasury watch, has been reported to Secretary Manning as unfit for further service by reason of intemperance and his dismissal has been recommended. He was formerly a member of the capitol police force, and has only held his present position a few months.

REV. COLIN ANDERSON, of California, and his mother, living in Scotland, were lately reunited, after a separation of thirty-two years, by means of a jack rabbit. The minister had been taught to believe that his mother was dead. He was going home, lantern in hand, one night last winter, when a jack rabbit, frightened by the light, allowed itself to be taken up by the ears and carried off. The story was written up by local papers, copied into Canadian journals, and one of these was sent by a friend to Mrs. Anderson, who at once wrote to her parson boy. A week or two ago the two had an affectionate meeting in Scotland.

AMONG the Irishmen who have gained an illustrious name in New Zealand is the Most Rev. Dr. Croke, first Roman Catholic Bishop of Auckland, whose removal to the see of Cashel is still deplored, not only by those in his former diocese but by Roman Catholics all over New Zealand. To the native race he was a special object of admiration on account of his splendid physique, and the ease with which he cleared a six-foot fence if it stood in his way. These qualities, with the warlike Maoris, went quite as far as his eloquent efforts to induce them to become members of his spiritual flock.

In September last Jesse W. Starr, a Philadelphia water works contractor, was awarded the contract for building a system of works in Wabash, the city to pay him an annual rental of \$4,000 for the period of twenty years for water for fire purposes. Although Starr declared his intention of commencing the work at once, he has not yet filed his \$2,000 bond for the formation of the company and beginning the erection of necessary buildings, and the city council is almost convinced that he does not intend proceeding with the work. November 29 is the last day on which he can commence in compliance with the ordinance, and after that date the contract will be declared void, and advertisements for new bids will be inserted in the papers.

SINCE Logansport is promised with five daily papers, it becomes interesting to know just how Fort Wayne stands as compared with other cities. Fort Wayne with about 37,000 people has five daily papers and eight weekly papers. Indianapolis, with 75,000 people, has five daily papers, the German, Columbus, Ohio, with 60,000 inhabitants, has three English and one German dailies, while Cincinnati has about a half-dozen and Chicago has but one or two more. "These figures go to show," says the Logansport Journal, "that Logansport is either a paradise for newspapers or that the other cities are as sterile as an ice field. As soon as Logansport secures her quota we shall expect to see about three dailies."

Mr. D. A. COFFIN is the most truthful if not the most facetious hotel-keeper in Maine. He advertises on his envelopes: "The original and only third-class hotel in Maine—where everything fails to suit—tough beefsteak, dirty rooms, useless servants, debilitated coffee. This house, of worldwide bad reputation, is owned, occupied and presided over by the laziest man in the State. Satisfaction not guaranteed; no money refunded. Dilapidated stable in connection. Everything warranted strictly shoddy."

THE last formulated idea in crazes is an international cooking match. This is to take place in the Aquarium in Westminster in December. It means the production of the favorite dishes of each nation. The Briton will present his plum pudding and roast beef, the Spaniard olla podrida, the Italian his macarona a la garlic, the German his bratwurst and sauerkraut, the Russian his kapoosta soup, the Frenchman his fricassee, and the Norwegian will teach how to cook eggs in that variety of ways which astonishes the traveler in his clime.

AN Elwood, New Jersey, correspondent in a letter to the Boston Traveler says: We have a case which goes to the credit of the prescribed mosquito, which at times is uncomfortably abundant in this region. A young lady from Pennsylvania was sent here in a very feeble condition as a last resort by her physician. The result was not particularly encouraging till, by an unusual visitation of the musical insect, she was so bitten on all parts of her body accessible as to cause a painful illness. When this disappeared she rapidly recovered from the former disease to the enjoyment of perfect health. The doctors declared that the mosquito treatment saved her.

SCOTTS EMULSION OF PURE Cod Liver Oil, with Hypophosphites, For Wasting Children, DR. S. W. COHEN, of Waco, Texas, says: "I have used your Emulsion in infantile wasting with good results. It not only restores wasted tissue, but gives strength, and I heartily recommend it for diseases attended by atrophy."

IN discussing British farmers' earnings and taxes, Mr. Harris, M. P., in an article in the London Economist estimates the salable products of the soil in England and Wales at an aggregate of \$562,500,000 annually. The taxation of farmers is put at \$80,075,000—nearly 15 per cent. of the value of the annual product, which is regarded as excessive. Several English statisticians have given estimates of the farmers' incomes, varying greatly. Mr. Craigie gives good reasons for estimating the farmers' profits at not over \$150,000,000 annually, which, added to the rent charges of \$30,000,000, would give the total profits derived from the products of the soil as \$480,000,000. According to Mr. Goschen they amount to \$700,000,000.

THE Siberian, an Asiatic-Russian paper, says: "The French Professor Pasteur, who has made him himself famous by inoculating men and cattle with disease-germs to insure them against epidemics, ought to yield the palm of priority in that discovery to a humble priest of our own country. In 1868, when the Siberian plague was killing the cattle in this place, Father Andrew Joakimovsky of the Troitzky Village resorted to a desperate means in order to save his cows. He got some blood from a dying cow, saturated thread with that blood, and passed these threads through the ears of the healthy cows, numbering eleven. At the place where the ears were punctured there appeared tumors the size of pigeon-eggs. In a short time those tumors disappeared, and the cows remained alive and healthy, though the rest of the cattle of that village perished."

HOOD'S Sarsaparilla, aching through the blood, reaches every part of the system, and in this way positively cures catarrh.

#### A Silhouette of Edgerton.

Washington Letter to Cleveland Leader.

A statesman of the old school was standing in the lobby of Willard's hotel to-day. Of medium height, his form was as straight as that of an Italian officer his clothes were of the finest broadcloth, and the high Henry Clay collar which clasped his neck, with the aid of a big black satin stock, was white as the purest of newly stricken lime. His boots shone like oiled ebony, and the long white shirt bosom which burst through his old style broadcloth vest had three large buttons of burnished gold. Add to this one of the friendliest faces shining out of a frame of white whiskers and silvery hair, a pair of blue eyes, a well cut nose and good teeth, and you have the Hon. Alfred L. Edgerton, of Fort Wayne, Ind., our new civil service commissioner. Mr. Edgerton is sixty-eight years old, but he is as spry as George Post, who was the youngest member of the last congress. His white beard is well trimmed, and it creeps up his neck out of his collar until it gives him a full set of whiskers. He is a pleasant talker, is as courteous as a French diplomat, and he appears to be both honest and able.

"My son, when you go to the city get you a bicycle, some tight pants, some tooth-pick shoes and a slender cane, but with all your gettings don't fail to get a bottle of Salvation Oil, for 'pride (you know) goeth before a fall.'

SCOTTS EMULSION OF PURE Cod Liver Oil, with Hypophosphites, For Wasting Children.

DR. S. W. COHEN, of Waco, Texas, says: "I have used your Emulsion in infantile wasting with good results. It not only restores wasted tissue, but gives strength, and I heartily recommend it for diseases attended by atrophy."

IT IS GOOD TO BE UNSELFISH AND GENEROUS, but don't carry that too far. It will not do to give yourself to be melted down for the benefit of the tallow trade; you must know where to find yourself.—George Eliot.

IN the Hop Plasters the virtues of fresh hops are combined with strengthening and stimulating balsams, and its cures of weak back, pain in the side, rheumatism, neuralgia or pain in the chest are simply marvelous, it being more efficacious and thorough than any liniment or liquid remedies. You'll say so after using.

NERVE-LIFE AND VIGOR restored in men and women by Gilmore's Aromatic Wine.

WHEN DOCTORS cannot help you then take Gilmore's Magnetic Elixir for your throat and lungs.

MIDDLE-AGED MEN who lack vigor and vitality can be cured by Gilmore's Aromatic Wine.

JAMES SULLIVAN of Salem, Oregon says he was cured of the Asthma by Gilmore's Magnetic Elixir.

THE WIFE, MOTHER AND MAID who suffer from Female weakness, will find Gilmore's Aromatic Wine a positive cure.

IN discussing British farmers' earnings and taxes, Mr. Harris, M. P., in an article in the London Economist estimates the salable products of the soil in England and Wales at an aggregate of \$562,500,000 annually. The taxation of farmers is put at \$80,075,000—nearly 15 per cent. of the value of the annual product, which is regarded as excessive. Several English statisticians have given estimates of the farmers' incomes, varying greatly. Mr. Craigie gives good reasons for estimating the farmers' profits at not over \$150,000,000 annually, which, added to the rent charges of \$30,000,000, would give the total profits derived from the products of the soil as \$480,000,000. According to Mr. Goschen they amount to \$700,000,000.

THE Siberian, an Asiatic-Russian paper, says: "The French Professor Pasteur, who has made him himself famous by inoculating men and cattle with disease-germs to insure them against epidemics, ought to yield the palm of priority in that discovery to a humble priest of our own country. In 1868, when the Siberian plague was killing the cattle in this place, Father Andrew Joakimovsky of the Troitzky Village resorted to a desperate means in order to save his cows. He got some blood from a dying cow, saturated thread with that blood, and passed these threads through the ears of the healthy cows, numbering eleven. At the place where the ears were punctured there appeared tumors the size of pigeon-eggs. In a short time those tumors disappeared, and the cows remained alive and healthy, though the rest of the cattle of that village perished."

HOOD'S Sarsaparilla, aching through the blood, reaches every part of the system, and in this way positively cures catarrh.

The grave of Beaconsfield has been allowed to fall into a most dilapidated condition.

A Printer's Error.

Sweet are the uses of adversity, the printer's copy said, but he set it up, sweet are the uses of advertising. Sweet, indeed, to those who are in sickness and suffering have seen the advertisement of some sovereign remedy, which upon trial has brought them from death's door.

"The best thing I ever saw in my paper was the advertisement of Dr. Pierce's 'Golden Medical Discovery' is again and again the testimony of those who have been healed by it of lung disease, bronchial affections, tumors, ulcers, liver complaints and the ills to which flesh is heir.

What is more annoying than a sick stomach? Nichols' Bark and Iron is the only sure remedy. It tonics and invigorating properties are unequalled.

THE LAY OF A COLD DAY.  
Sister's run up yesterday,  
In the sky;  
Each autumn air breathes lightly,  
Like the reed.  
The trees are getting bare,  
With boughs bare; the bare,  
The landscape's worse for wear,  
So am I.  
The chilly brook runs slowly,  
Through the meadow;  
The frost-nipped corn bows lowly,  
Like the reed.  
The crows begin to peck;  
My overcoat is thick;  
The frost gives me a shock,  
Yes, indeed!

COMMISSIONER EDGERTON  
Says There is no Misunderstanding  
With the President—  
The Indiana School  
Bonds.

Hon. A. P. Edgerton, now in the city, said to a newspaper representative, so says the Louisville *Courier Journal*: "It is denied that there is any misunderstanding between the civil service commission and the president concerning the decision in the Sterling case. The statement that the president intended the decision in that case should apply to all others is made under a misapprehension of the situation. The references to the Sterling matter made by the president in his recent interview were intended to apply to that case and no other, and there was a thorough understanding on the subject before it was decided that the whole list of eligibles should be certified to Mr. Hadden to select from.

"Colonel Lamont says it is some others and not the civil service commission who have misapprehended the president's views. He was understood from the first, he says, that this was to be an exceptional case. The commission did not fail to catch the drift of the president's views.

"Messrs. Eaton and Trenholm are out of the city, but Mr. Edgerton says he has not seen or heard anything to indicate that the commissioners' action was in any way at variance with the president's views. He is unsparing in his criticism of Mr. Thoman's offering certain Indiana school bonds here in payment for a house. Mr. Edgerton says that nearly three-quarters of a million of these bonds have been issued through fraudulent collusion and that there is not the slightest prospect of any one of them being paid. There is no restriction upon the township authorities of Indiana to prevent them from running their town in debt, but in nearly every case where bonds have been issued, as they have been there recently, the courts have thrown them out as so much waste paper. In some cases bonds have been issued in towns for nothing at all, aggregating a greater amount than the entire property in the townships. The most superficial investigation would have shown to any well-intentioned investor the true character of these bonds. Thoman appears to have compromised the matter here in some way, because there is no longer any talk of prosecuting him."

Binks heaved a sigh and returned. "Reminds me of a girl I met last Eve, who they say *Isabel* socially. She told me she was an acquired taste—her name was *Olive*. I *Owen* was a little startled, and left the *Dove-jar* when I went out, but I had *Prudence*, and endured all with *Christian Patience*. If I'd been *Abel* to *Neil* I'd have done so, and *Rosa*—again only when she'd promised *Mercy*. But *Mark me*—"

"Oh, Marcus both."

But the strain had been too great, so they separated in silence.—*The Rambler.*

## Discontented.

A little Delaware girl was compelled to don a dress to which she took exception. For a long time she sat moping, never saying a word.

"What's the matter, dear?" asked her mother.

"Oh, I believe this dress makes me bilious."—*Detroit Free Press.*

James Little, a man with many aliases,  
is in jail at Grand Rapids, charged with  
attempting to obtain money under false  
pretenses from the Grand Rapids and In-  
diana railroad company, on a spurious  
claim for injuries received in an accident  
on that road. It appears that on last  
Wednesday the man Little filed a claim  
against the road for \$225, for alleged in-  
juries sustained while a passenger in go-  
ing from Cincinnati to Fort Wayne in July  
last. He alleged that as the train stopped at Fort Wayne he arose from his seat  
and started to leave the car, but before he got out, the train suddenly backed up, throwing him against a seat  
and injuring him severely. The claim  
was referred to the general counselor of  
the road, Mr. T. O'Brien, and on its  
being presented to him he became sus-  
picious that it was not all right. On in-  
vestigation he discovered that a man  
answering the description of Little had  
presented on the first of this month an  
identical claim for exactly the same in-  
juries to the Flint & Pere Marquette  
road, and had been paid \$100 by them  
on November 4. The result of this in-  
vestigation was that a warrant was issued  
for Little and when he went to Mr.  
O'Brien's office to learn the progress of  
his claim he was arrested. He admitted  
his guilt and on being arraigned in the  
police court, waived examination and  
was bound over for trial at the next  
term of the superior court in the sum of  
\$600. Being unable to find bail he was  
taken to jail. Little is a man  
fifty-five years old, is evidently a south-  
erner, and claims that he lost a large  
property in the south during the war.  
His claim is substantiated by affidavits  
and doctors' certificates, all of which he  
admits that he forged. He says that he  
was injured some three years ago in a  
railroad accident and only obtained \$250  
damages. He has since been bulldozing  
his living out of the roads. Dr.  
Johnson examined him for the Grand  
Rapids and Indiana road, and said that  
he had evidently been injured some  
time. He has traveled under the aliases  
of Robert Cole and James S. Hopkins,  
using the latter in prosecuting his claim  
against the F. and P. M. road. He ad-  
mits being the same man who attempted  
to swindle the Lake Shore road on a  
similar claim a short time ago at Cleve-  
land, and being suspicious that they  
were setting a trap for him, he left sud-  
denly without obtaining any money.

## A CLEAR TRACK.

The Servians on to Sofia  
Unhindered.

The Widden Wing of the Bulgarian Army  
Is Completely Routed and  
Banished.

Prince Alexander Leads a Division of  
His Forces to Victory Against  
Serbia.

## THE ROUTE OPEN.

Via Bresnik to Sofia—The Widden  
Army Whipped.

By Telegraph to The Sentinel.

BELGRADE, Nov. 18.—An official report from the front, states the Servians entered Bresnik yesterday. The town had been abandoned by the Bulgarians, who in their haste to get away, left eight guns behind them. The capture of Bresnik leaves that route open to Sofia. The Bulgarian army of the Widden district may be considered completely destroyed and dispersed.

BELGRADE, Nov. 18.—An official dispatch relative to the engagements near Slivenitsa says that after heavy fighting Prince Alexander was forced to retreat to Slivenitsa. Both sides lost heavily. Sharp fighting has occurred on the left of the Servian advance line, while both forces hold their positions.

### A BULGARIAN VICTORY.

LONDON, Nov. 18.—The Bulgarians, after desperate fighting, have carried every one of the Servian positions which were menacing Slivenitsa. Prince Alexander led the Bulgarian columns in person.

### THE BRITISH

Win Their Way to the Burmese  
Capital.

By Telegraph to The Sentinel.

LONDON, Nov. 18.—The British forces in Burmah have carried the fort in the vicinity of Minha and have captured the city after three hours' firing from the floating batteries, armed launches and heavy guns on board steamers. The British lost four men killed and twenty-seven wounded. Minha was the most strongly fortified position on the river and its capture has cleared for the British the advance to Mandalay as the forts at Ava, twelve miles from the Burmese capital, are only slight structures in comparison with those at Minha.

IZANISKOD, November 17.—The present Servian order of battle is as follows:

Col Benecky with the Shumadja division, has ascended the Lunoiska stream and is approaching Slivenitsa; Col Michkovitch with his force has reached Gentzi pass, on the route to Slivenitsa; Gen. Jovanovitch, with a large force is in Dragoman pass; Col. Djukanitch is at Koyozovatz with the reserves; Gen. Leshnjanin remains at Kiola which he has captured; Col. Topolovitch with his force is at Ira and is going to Brasnik, whence he will cross by a direct route to Slivenitsa. Each marching division numbers 10,000 men. The Bulgarians are concentrated at Slivenitsa.

CONSTANTINOPLE, November 17.—Prince Alexander, of Bulgaria, has sent a note to the powers, saying Bulgaria after espousing the Roumanian cause did her utmost to comply with the decision of the ambassadors and to prevent agitation. She sees now Servian invasion without Servia sending through the Porte the only competent channel an ultimatum in conformity with international law. Bulgaria has not violated the integrity of Turkey because Bulgaria and eastern Roumania belong to Turkey whilst Servia is an independent state and violates the integrity of Turkey for territorial aggrandizement, at the expense of Bulgaria, to satisfy Servian ambition and egotism. Bulgaria relies on the sense of justice of the powers, as Europe must speak the last word on the question.

LONDON, November 17.—Cyrus W. Field has sued James Gordon Bennett, proprietor of the New York Herald and A. Oakley Hall, his London correspondent for 100,000 pounds damages, for libel, in publishing a cable dispatch dated London, February 4th, stating that "Mr. Wm. Abbott, broker and operator of Tokenhouse yard, supported by many stockholders of the Anglo-American Cable company, announces that at the Friday meeting

of the directors of the Anglo-American Cable company he will introduce a resolution to expel Mr. Cyrus W. Field from the directorship on the ground that he is unworthy of any position of confidence or trust."

BELGRADE, November 17.—The people of Sofia are panic stricken. It is admitted here, that the Servians lost seven hundred killed and wounded in capturing Adiljev. A Servian cavalry force has seized the highway from Lampolanka to Sofia and has occupied Glenc pass thus separating the two Bulgarian armies.

PARIS, November 17.—The Laferre arsenal has been partially destroyed by fire. The loss will reach a million francs.

The Work There of an Interesting Character.

By Telegraph to The Sentinel.

WASHINGTON, Nov. 18.—Commissioner Black says he cannot award pensions to soldiers who deserted, but he will not object to the adjutant-general of the United States removing disability and asks all applicants burdened with the stigma to first apply to the adjutant-general.

WASHINGTON, D. C., November 17.—The annual report of the lieutenant-general of the army is made public to-day. At the date of the last consolidated returns, the army consisted of 2,154 officers and 24,705 men. Nothing, says the report, has yet been done in the division of the Atlantic, for the protection of our seaboard, by the improvement, enlargement, or increase of the armament of our fortifications. So that many of our large cities are still at the mercy of the ironclads of foreign nations, in case of rupture of our relations; but it is hoped that public sentiment will before long prevail on congress for a liberal appropriation in this respect. The division of the Missouri had disturbances which have severely taxed the troops and the supply departments of the government. First came the Oklahoma invaders, then the Cheyenne and Arapahoe disturbances, which threatened for a time all the horrors of an Indian war. In the south western corner of New Mexico many lives have been lost by the invasion of a small body of Chiricahuas Apaches, from Arizona. A large number of troops are at present operating in the district, with the view of its protection and there are hopes of an early settlement of the Apache difficulty. In the north west General Terry commanding the department of Dakota, was obliged to keep a large number of troops in the field on account of the Red rebellion. General Howard commanding the department of the Platte, in addition to furnishing troops to the department of the Missouri, for the apprehended difficulties with the Cheyennes, had now has to provide troops on account of the Chinese labor troubles in Wyoming.

Colonel Switzler says there has been, since 1860, a very marked decline in the percentage of imports of manufactured articles and a corresponding increase in the percentage of imports of crude or partially manufactured articles. This is a significant fact, showing a steady growth in the demand for crude articles to be used as materials in the various processes of home manufacturers.

The Stocks Make a Great Advance and Wheat Follows at New York City.

The First Volume of General Grant's Book—Four Men Killed in a Mine.

## ALL BOOMING.

The Stock, Money and Grain Markets.

By Telegraph to The Sentinel.

NEW YORK, Nov. 18.—The stock market opened amid great excitement, all advances ranging from 1 to 1 per cent. After the opening there was some appearance of feverishness for a few minutes, but this was succeeded by a further general advance and the market was active and strong throughout the remainder of the first hour. Missouri, Kansas and Texas rose 11; St. Paul, Pacific Mail and Missouri Pacific each 1 per cent, and others fractional amounts, except Vanderbilt's Western Union and Jersey Central, which were fairly steady. Wheat opened heavy and 10¢ lower, but afterwards recovered and advanced 1¢ with less doing. No. 2 red December, 98¢ 25¢c; Corn 1¢ 47¢ higher and fairly active. Money nominal at 24¢ 3 per cent.

## GRANT'S BOOK.

The First Volume has Just Been Issued.

By Telegraph to The Sentinel.

NEW YORK, Nov. 18.—The  *Tribune* says: "The first volume of General Grant's book is published. It contains nineteen illustrations, including that of the house in which he was born. The first of the fifty-nine chapters, are devoted to the question of ancestry, birth and boyhood. The second takes up West Point and the graduation. Chapters three to six, inclusive, tell of his army life, while chapters seven to thirteen deal with the Mexican war. From the fourteenth to sixteenth chapter, inclusive, is a narrative of his marriage and life in California up to his resignation in the army. The remaining twenty-three chapters are devoted to the war of the rebellion and there are maps of all principal battle-fields."

The second volume touches incidentally upon the Andrew Johnson matter, which has been subject to so much discussion of late, caused by Mr. DeWeese's letter. It will be published in March.

## GETTING MAD.

The President Angered at Germany and Austria.

By Telegraph to The Sentinel.

NEW YORK, Nov. 18.—A Washington special says the president has called on the state department for a full statement of the relations with Germany and Austria in regard to treatment of naturalized citizens of the United States in those countries.

It is understood the president will force this issue and bring about a crisis if Germany and Austria do not alter their attitude.

## A FEMALE SEMINARY

Burned to the Ground, the Work of an Incendiary.

By Telegraph to The Sentinel.

QUINCE, Georgia, Nov. 18.—A building used as a colored female seminary was burned last night. Several months ago the northern Methodists purchased the building, but the citizens objected strongly to the location of a negro institute on the site and every effort was made to effect an agreement which would change the location to another part of the town. Soon after the opening of the school an unsuccessful attempt was made to assassinate the principal by shooting him at night, after calling him to his door. No lives were lost by last night's fire. The origin of the fire is a mystery. Mrs. Hutherford B. Hayes is said to be one of the ladies interested in the school.

By Telegraph to The Sentinel.

BATAVIA, Ohio, Nov. 18.—About 2 o'clock this morning, a party of five young people, coming from Milford to Batavia in a wagon, were thrown over an embankment ten feet high, near Stone Lick, into fifteen feet of water. Miss M. Bogan, aged eighteen, Milton Bogan, aged thirteen, and Joseph Beckley, aged twenty-six, were drowned. Charles Page, son of W. H. Page, of the Ohio and Mississippi railroad, and Miss Ella Yeager were saved. The bridge burned two or three years ago and was not repaired, hence the accident.

Electricity or Gas.

By Telegraph to The Sentinel.

NEW YORK, Nov. 18.—The property of discontinuing the use of the electric light by the city, except along the water fronts and in the public parks, on the ground that they cost \$100,000 a year more than gas, was discussed by the aldermen, yesterday. The matter was finally referred to the committee on county affairs.

The B. & O. Slow.

CINCINNATI, Nov. 18.—Emmet Cunningham, a young colored man, was found dying in the street, at Sixth and Main, early this morning, from two knife wounds. He was taken to the hospital, where he shortly died, not having been able to speak. No clue to his murderer.

The Billiard Match.

By Telegraph to The Sentinel.

CHICAGO, November 17.—The attendance on the second night of the fourteen inch Balk Line billiard tournament, was not so large as last night. In the game between Vignaux and Schaeffer the latter was the favorite, at odds of two to one. In the sixth inning, Schaeffer made a run of 132; at the end of Schaeffer's half of the tenth inning, he had 263 points against Vignaux's 61. In the tenth inning Vignaux improved in playing and before he made a break he scored 167 points, giving him a total of 299 to Schaeffer's 263.

Vignaux in the 24th inning made even 600 points, closing the most remarkable game in billiard history, having scored in every inning. Schaeffer's total was 445.

## COMMON SENSE IN LAFAYETTE.

Lafayette, Ind., shares with twenty-three other cities and towns in the United States, the distinction of being named after the great French patriot who did so much for this country and his own, but it is also in the honor of being mentioned in the *Encyclopaedia Britannica*. Life in the lively pushing city on the Wabash, with its many cozy homes, fine public buildings and general air of prosperity and enterprise, is very pleasant, and recently many of its citizens feel that it has assumed new charms since rheumatism has been robbed of its terror.

This great benefaction, however, is not one which rejoices this particular Lafayette alone, but it has been given to other Lafayettes as well, and to the world. Athiophores is the magic remedy which drives away rheumatism and neuralgia, and Lafayette has only shown its characteristic enterprise in recognizing the new cure's many virtues. Among those whom it has benefited is Mrs. Francis Heath, of No. 79 Ferry street, an old resident and the mother of banker Heath. In answer to one who recently called on her to learn the facts in the case she gave this account:

"I have had rheumatic pains in my feet for a number of years. They affected me at times so that it was with much difficulty that I could walk, especially in going down stairs. Athiophores was first recommended to me by Bishop Bowman. I did not get it at that time, but kept trying other medicines. It was again recommended to me by a lady. I then sent for and bought a bottle. I took a dose, and it seemed to me as if I could feel it go through my system until it came directly to the sore spot. It felt just as a little stream of water looks when during its course it comes in contact with pebbles. One or the other must give way. The water may run around the stone, but that was not the way Athiophores did. It did not go around the pain, but drove it away. The relief was almost instantaneous. While I am getting along in years and cannot expect to get rid entirely of these pains at once, yet a small dose of Athiophores in a little cream—the way in which I find most pleasant to take it—relieves the pain immediately."

Mr. Baldwin, who is in the real estate and insurance business at No. 94 South Third street, and who lives at No. 17 North Sixth street, happened to be passing while Mrs. Heath was speaking, she called him in and he gladly told how he had been cured of rheumatism by Athiophores.

"I was just about to start down to my office one morning last winter," he said, "when a terrible pain took me right in the hip and then ran down the sciatic nerve as quick as lightning. It was with much pain and distress that I managed to get down to my office at all. My business being such that it was necessary for me to be at the office every day, I was obliged to hobble along and get there the best I could. I suffered for some time in this way, trying all kinds of remedies, but nothing seemed to check the disease until I commenced using Athiophores. The first four doses gave me relief. I only used one bottle, and am perfectly well, as you see me now. I have never had any return of the pain since I took the Athiophores."

If you cannot get Athiophores of your druggist, we will send, on receipt of remittance, one dollar per bottle. We prefer that you buy it from your druggist, but if he has not, do not be persuaded to try something else, but order at once from us, addressed Athiophores Co., 112 Wall Street, New York.

MISS CLEVELAND has returned to the white house.

VICE PRESIDENT AND MRS. HENDRICKS, State Secretary Myers and Treasurer Cooper, went to Chicago last night to attend the fat cattle show there.

EDWARD P. ELLIOTT, of Indiana, has resigned as a special examiner in the pension office at \$1,400 a year, and Charles Slavins, of Missouri, was appointed in his place.

The pope has settled the tiresome Caroline Islands matter by recognizing Spain's sovereignty over the islands, and advising Germany to accept the commercial concessions tendered by Spain.

INDIANA office-seekers are being notified that the supply of places in the departments at Washington is exhausted, and applications for appointments must be made through the civil service commission.

LIEUTENANT SCHELL, of Indiana, of the treasury watch, has been reported to Secretary Manning as unfit for further service by reason of intemperance and his dismissal has been recommended. He was formerly a member of the capitol police force, and has only held his present position a few months.

Rev. COLIN ANDERSON, of California, and his mother, living in Scotland, were lately reunited, after a separation of thirty-two years, by means of a jack rabbit. The minister had been taught to believe that his mother was dead. He was going home, lantern in hand, one night last winter, when a jack rabbit, frightened by the light, allowed itself to be taken up by the ears and carried off. The story was written up by local papers, copied into Canadian journals, and one of these was sent by a friend to Mrs. Anderson, who at once wrote to her parson boy. A week or two ago the two had an affectionate meeting in Scotland.

AMONG the Irishmen who have gained an illustrious name in New Zealand is the Most Rev. Dr. Croke, first Roman Catholic Bishop of Auckland, whose removal to the see of Cashel is still deplored, not only by those in his former diocese but by Roman Catholics all over New Zealand. To the native race he was a special object of admiration on account of his splendid physique, and the ease with which he cleared a six-foot fence if it stood in his way. These qualities, with the warlike Maoris, went quite as far as his eloquent efforts to induce them to become members of his spiritual flock.

In September last Jessie W. Starr, a Philadelphia water works contractor, was awarded the contract for building a system of works in Wabash, the city to pay him an annual rental of \$1,000 for the period of twenty years for water for fire purposes. Although Starr declared his intention of commencing the work at once, he has not yet filed his \$2,000 bond for the formation of the company and beginning the erection of necessary buildings, and the city council is almost convinced that he does not intend proceeding with the work. November 29 is the last day on which he can commence in compliance with the ordinance, and after that date the contract will be declared void, and advertisements for new bids will be inserted in the papers.

Logansport is promised with five daily papers, it becomes interesting to know just how Fort Wayne stands as compared with other cities. Fort Wayne with about 37,000 people has five daily papers and eight weekly papers. Indianapolis, with 75,000 people, has five daily papers and one German daily, while Cincinnati has about a half dozen and Chicago has but one or two more. "These figures go to show," says the Logansport *Journal*, "that Logansport is either a paradise for newspapers or that the other cities are as sterile as an ice field. As soon as Logansport secures her quota we shall expect to see about three daily

started at Galveston, and a couple at Plug station."

Mr. D. A. Corris is the most truthful if not the most facetious hotel-keeper in Maine. He advertises on his envelopes: "The original and only third-class hotel in Maine—where everything fails to suit, tough beef-steak, dirty rooms, useless servants, delicated coffee. This house, of worldwide bad reputation, is owned, occupied and presided over by the laziest man in the State. Satisfaction not guaranteed; no money refunded. His plates stink in composition. Every thing warranted strictly shoddy."

The last formulated idea in crazes is an international cooking match. This is to take place in the Aquarium in Westminster in December. It means the production of the favorite dishes of each nation. The Briton will present his pie-pudding and roast beef, the Spaniard olla podrida, the Italian his macaroni à la garlic, the German his bratwurst and sauerkraut, the Russian his kapusta soup, the Frenchman his fricassée, and the Norwegian will teach how to cook eggs in that variety of ways which astonishes the traveler in his clime.

AN Elwood, New Jersey, correspondent in a letter to the *Boston Traveler* says: We have a case which goes to the credit of the prescribed mosquito, which at times is uncomfortably abundant in this region. A young lady from Pennsylvania was sent here in a very feeble condition as a last resort by her physician. The result was not particularly encouraging till, by an unusual visitation of the musical insect, she was bitten on all parts of her body accessible as to cause a painful illness. When this disappeared she rapidly recovered from the former disease to the enjoyment of perfect health. The doctors declared that the mosquito treatment saved her.

CONTENSE DE MAINTON, of Paris, said to a reporter at Chicago: "I am on my way to join my son on his cattle ranch in Texas. I assure you I am glad to be in a true republic, away from that fantastic imitation of one that the people have been pleased to create in France. Already, though, the French Republic wavers, and to me its doom seems not far distant. My husband died on the field in the Franco-Prussian war, and since the downfall of the empire, the untimely death of the Emperor and Prince Imperial and the cruel exile of our beloved Empress, France has lost much of its brightness and Paris is peopled only with ghosts and shadowy memories of the brilliant past."

In discussing British farmers' earnings and taxes, Mr. Harris, M. P., in an article in the London *Economist*, estimates the salable products of the soil in England and Wales at an aggregate of \$62,500,000 annually. The taxation of farmers is put at \$40,000,000—nearly 15 per cent. of the value of the annual product, which is regarded as excessive. Several English statisticians have given estimates of the farmers' incomes, varying greatly. Mr. Craigie gives good reasons for estimating the farmers' profits at not over \$150,000,000 annually, which, added to the rent charges of \$32,000,000, would give the total profits derived from the products of the soil as \$48,000,000. According to Mr. Goschen they amount to \$70,000,000.

THE Siberian, an Asiatic-Russian paper, says: "The French Professor Pasteur, who has made him himself famous by inoculating men and cattle with disease-germs to insure them against epidemics, ought to yield the palm of priority in that discovery to a humble priest of our own country. In 1808, when the Siberian plague was raving the cattle in this place, Father Andrew Josimansky of the Troitzky Village resorted to a desperate means in order to save his cows. He got some blood from a dying cow, saturated thread with that blood, and passed these threads through the ears of the healthy cows, numbering eleven. At the place where the ears were punctured there appeared tumors the size of pigeon-eggs. In a short time these tumors disappeared, and the cows remained alive and healthy, though the rest of the cattle of that village perished."

Blood's Sarsaparilla, acting through the blood, reaches every part of the system, and in this way positively cures all.

The grave of Beaconsfield has been allowed to fall into a most dilapidated condition.

A Silhouette of Edgerton.  
Washington Letter to Cleveland Leader.

A statesman of the old school was standing in the lobby of Willard's hotel to-day. Of medium height, his form was as straight as that of an Italian officer his clothes were of the finest broadcloth, and the high Henry Clay collar which clasped his neck, with the seal of a big black satin stock, was white as the purest of newly-shucked lime. His looks shone like oiled ebony, and the long white shirt bosom which burst through his oldstyle broadcloth vest had three large buttons of burnished gold. Add to this one of the friendliest faces, shining out of a frame of white whiskers and silvery hair, a pair of blue eyes, a well cut nose and good teeth, and you have the Hon. Alfred T. Edgerton, of Fort Wayne, Ind., our new civil service commissioner. Mr. Edgerton is sixty-eight years old, but he is as spry as George Peet, who was the youngest member of the last congress. His white beard is well trimmed, and it creeps up his neck out of his collar until it gives him a full set of whiskers. He is a pleasant talker, as in courteous as a French diplomat, and he appears to be both honest and able.

"My son, when you go to the city get you a bicycle, some tight pants, some tooth-pick shoes and a slender cane, but with all your gettings don't fail to get a bottle of Salvation Oil, for 'pride (you know) goeth before a fall."

Bruster's Run shivers trembles,

The lands are worse for wear,  
To see.

The chilly brook runs slowly,  
Through the woods;  
The frosty air bows low,  
Like the trees;  
The crows begin to shriek,  
Mr.寒风's "in here,"  
The thought gives me a shiver,  
Yes, indeed!

### An Editor's Politeness.

A yellow-backed pirate named Jim Cummings, who works for Sam Hardner near Millville, came to town last Saturday, and, while drunk at Crowley's grocery, made some remarks about ourselves as we were passing up street with our youngest daughter. He was soared because we turned him over two weeks ago and his crew, that took the lymphatics out of old man Parson's buzz at the Goose Creek meeting. When we spoke his insulting from Hubert Davis took it up, and in a row which followed he struck the corolla, a subinator on the jaw, which knocked him out from between his wool suspenders and loosened six of his teeth. He had Davis arrested by Marshal Billings, and the Mayor levied a fine of ten dollars, which we paid for him as soon as we learned the facts. We intend to show up the whisky yahoo from the Goose Creek neighborhood who try to run this town Saturday; and, by the way, Han Davis is a candidate for Town Marshal. He is the man for that job. —Wisconsin (Mil.) Constitutionalist.

### Nansey.

"Some one told me to-day," remarked Bird, thoughtfully, "that Shadrack was a good name for a fisherman, but I do know if he was *ever* in his remarks. He'd Shadock, good many Miles, and was Justice from the country. To be frank he looked like a Guy. Told me he came to a river and had to Shadock."

Bird heaved a sigh and returned.

"Reminds me of a girl I met last Eve, who they *acted* socially. She told me she was an acquired taste; her name was Odore. I soon I was a little startled, and left the home jar when I went out, but I had *presence*, and endured all with *Christian* *Patience*. If I'd been *able* to Ned I'd have done so, and *been* gain only when she'd promised *Merry*. But —Mark me —"

"Nay, *Merry* both."

But the strain had been too great, so they separated in silence. —The Hambler.

### Discontented.

A little Delaware girl was compelled to don a dress to which she took exception. For a long time she sat moping, never saying a word.

"What's the matter, dear?" asked her mother.

"Oh, I believe this dress makes me *bliss*—"

Advice to MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieved, relieves the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle.

### THE CITY.

Hay is now selling at \$10 a ton.

The Pittsburg "pay car" went west at noon to-day.

Workmen are embellishing the new Metropolitan theater.

Miss Ida Kellogg will give an operetta at Portland, Ind., very soon.

The Wayne township reading circle will be organized this evening.

Gnat Rehnen is very sick with typhoid fever, a disease that rages here now.

W. and E. Leonard, the young attorneys, have an office in the Foster block.

The funeral of Miss Fannie Compton occurred this afternoon and was largely attended.

Nellie Kidd and Prof. Caldwell close their monastic engagement at the Academy to-night.

There was a furious storm west of Fort Wayne last night. At Arcola the earth is flooded.

Mrs. C. P. Wise, who has been the guest of relatives here, returned to her home at Chicago to-day.

The residence of Samuel Summers, at Sheldon, burned down a few nights ago. The light was seen here.

Frank Brokaw, a lad who was vicious with a slung shot, was fined by the mayor yesterday. His papa paid.

A young man who clerks for August Huxoll was fined last night for selling liquor to young Higbee, a minor.

A surprise party will be given to-night in honor of the sixteenth birthday of a charming young lady in the east end.

Wm. Curry was buried this morning and the Knights of Pythias, headed by the City band, led the funeral cortege.

The building committee of the First Presbyterian church to-day examined plans for floors for the new house of worship.

Charles Fearnbach and Charles Stockman, et al., to set aside a fraudulent conveyance. W. G. and P. B. Colerick file the complaint.

President Roberts, of the Pennsylvania Railroad, does not attend to business on Saturday, but invariably devotes that day to his family.

Mr. and Mrs. J. K. McRacken entertained a stop card party in a most pleasant way last evening at their West Wayne street home.

"Miss Jessie White, daughter of J. B. White, of Fort Wayne, is in the city the guest of Mrs. Dr. J. H. Davison," says the Warsaw Times.

Workmen are repairing the roof over Judge Hench's law office and last night the room was flooded. His library was considerably damaged.

Mrs. Dennis has appealed her case to the circuit court and when the grand jury meets again it will come up. She is charged with violating the liquor law.

Mr. and Mrs. J. W. Randall, of Toledo, Ohio, who have been the guests of Mr. and Mrs. Dink Trentman, started last night for San Francisco, Cal., where they will spend the winter.

John J. Fraiken, of Fort Wayne, was yesterday granted a patent on a cultivator. Charles D. Jenny, of Indianapolis, received patent papers on an armature for a dynamo-electric machine.

R. N. Youngblood and Frank Vevis, both ex-conductors on the Pittsburgh road, have formed a partnership in the lumber business at Muskegon, Mich. The Sentinel desires success to attend the gentlemen.

Howell C. Rockhill has shipped to the city three imported Holstein cattle, purchased from the farm of T. E. Fay, at Brian, Ohio. The animals are standard bred and as fine as ever trod soil. They will be kept on the suburban farm of the Moxars, Rockhill.

A more mirth-provoking or thoroughly enjoyable performance than that given by that prince of comedians, Sol Smith Russell, will not be offered again in our city for some time. Take our friendly advice and go to the Temple on Saturday evening by all means.

The indications for the lower lake region, as reported by the weather bureau at Washington to THE SENTINEL, are as follows: Local rains, followed by clearing weather, preceded in western portion by slight rise in temperature, winds generally shifting to northerly.

Hon. John W. Kern, reporter of the supreme court, Indianapolis, will be married to-morrow to Miss Minnie Cooper, of Kokomo, at the residence of Dr. J. B. Shultz, at Logansport. The Sentinel was a little premature in announcing the wedding some weeks ago.

Thanksgiving day one week from to-morrow. Those who feel that they have anything to be thankful for will, in the meantime, proceed to get ready to observe the day in a suitable and proper manner. It's a very shiftless person, by the way, that can't skirmish around and feign to discover a little something to be thankful for.

Dr. G. P. Barnum is regaining his health at Mt. Clemens.

F. C. Benedict, of Smith street, is very low with typhoid fever.

Wilhier F. Richards and Melrose McCleary have been licensed to wed.

At Davis station, between Plymouth and Valparaiso, the two engines of a double header freight train ran off the track on account of a switch being misplaced. Pittsburg passenger train No. 6, east bound, was delayed about 5 hours. No one hurt.

A. G. Strain to-day sued Josiah O. Keller to dissolve partnership, and he asks that a receiver be appointed for the Keller Medicine company, now famous for its proprietary remedies. Mr. Josiah Bookwalter, father of C. A. Bookwalter, city editor of the *Guardian*, travels for the house.

Mr. Cyrus Shaff, of Arcola, left a few curiosities at THE SENTINEL office this morning. They are twin and triplet apples. The twin apples are linked together, while the triplets are firmly attached to each other and have three separate hearts just as though they didn't touch each other.

The case of T. E. Ellison vs. the Grand Rapids road is on trial before Judge Hench and a jury. Mr. Ellison seeks \$5,000 damages for injuries to his man in a wreck at the Grand Rapids-Nickel Plate junction. Supt. P. S. O'Rourke testified this morning and the attorneys quarrel constantly.

Mr. C. H. Newton, agent of the Wabash road in this city, has received instructions to take an inventory of the property belonging to the road at this place. Other agents along the entire length of the road have been requested to comply with the same order. The Wabash will pass out of the hands of a receiver in about a month and the inventory is made to get an estimate of the value of the property belonging to the road before the change in the management takes place.

Moxars, Foote & O'Connor have another great attraction and to-morrow evening at the Princess rank Misses Hanna and Blakely, of Boston, challenge bicyclists and roller skaters, will give one of their fine exhibitions. Misses Hanna and Blakely are late of the "Damen Combination" and are considered by the press and public to be the champions of America. This will be one of the finest attractions that has appeared at this popular place of amusement for a long time.

"We are glad to note the fact that Hon. T. P. Keeler, of Fort Wayne, will soon don the editorial harness, and join the great brotherhood of Indiana editors. Mr. Keeler is one of the most genial, graceful and pleasant newspaper men we have ever met. He is an easy, ready and brilliant writer upon almost any subject, and has a peculiar knack of making himself agreeable and popular with every one he comes in contact with. We welcome Mr. Keeler back to the tripod," says the Huntington Herald.

Jane Little Arrested for an Attempt to Defraud the Grand Rapids Road for Injuries Inflicted Here.

James Little, a man with many aliases, is in jail at Grand Rapids, charged with attempting to obtain money under false pretenses from the Grand Rapids and Indiana railroad company, on a spurious claim for injuries received in an accident on that road. It appears that on last Wednesday the man Little filed a claim against the road for \$225, for alleged injuries sustained while a passenger in going from Cincinnati to Fort Wayne in July last. He alleged that as the train stopped at Fort Wayne he arose from his seat and started to leave the car, but before he got out, the train suddenly backed up, throwing him against a seat and injuring him severely. The claim was referred to the general counsel of the road, Mr. T. J. O'Brien, and on its being presented to him he became suspicious that it was not all right. On investigation he discovered that a man answering the description of Little had presented on the first of this month an identical claim for exactly the same injuries to the Flint & Pere Marquette road, and had been paid \$100 by them on November 4. The result of this investigation was that a warrant was issued to Little and when he went to Mr. O'Brien's office to learn the progress of his claim he was arrested. He admitted his guilt and on being arraigned in the police court, waived examination and was bound over for trial at the next term of the superior court in the sum of \$600. Being unable to find bail he was taken to jail. Little is a man fifty-five years old, is evidently a southerner, and claims that he lost a large property in the south during the war. His claim is substantiated by affidavits and doctors' certificates, all of which he admits that he forged. He says that he was injured some three years ago in a railroad accident and only obtained \$250 damages. He has since been building his living out of the roads. Dr. Johnson examined him for the Grand Rapids and Indiana road, and said that he had evidently been injured some time. He has traveled under the aliases of Robert Cole and James B. Hopkins, using the latter in presenting his claim against the F. and P. M. road. He admits being the same man who attempted to swindle the Lake Shore road on a similar claim a short time ago at Cleveland, and being suspicious that they were setting a trap for him, he left suddenly without obtaining any money. The occurrence was reported in a late

number of the Cleveland *Leader* and copied from there into the last number of the *Railway Age*. Little has lived here for a year or two, and
